

Two-ear clips W1

The two-ear clip W1 (zinc-plated) is a economic solution for many simple hose assemblies, used with air or fluids. The two ears maintain a constant pressure around the hose. The practical design means that they clamp firmly on the assembly and are tamper proof once mounted. Two-ear clips offer a great versatility in simple hose assemblies.

Also available: Ear clip pliers for lateral and frontal use.

Order reference: KOT

Applications

simple hose assemblies

Ø min - max (mm)	Bandwith (mm)	Box qty (pc)	Ref W1
10 - 12	6,5	1.000	KO1012
